## Husqvarna DM 220

*Ergonomically designed handheld machine for both dry and wet drilling. The DM 220 is equipped with a new level guidance system for vertical, horizontal or angled drilling, which increases precision and makes you more efficient. It's perfect for professionals as well as less experienced users.*

### **ADJUSTABLE HANDLE**

The front handle can be turned 360 degrees, which is useful when you're drilling in cramped areas.

### **DRY AND WET DRILLING**

Thanks to a three-way valve integrated in the front of the drill motor, you can easily change between dry and wet drilling.

### **ELGARD™**

Equipped with Elgard™, the machine uses pulsation to warn you of an approaching overload. This extends product life.

### **GUIDANCE FOR EXACT DRILLING**

A LED indicator on the DM 220 shows when the machine is in preferred vertical, horizontal or angled position. This provides more efficient drilling.

## Features Husqvarna DM 220

- Several of our products has the Smart Start® feature which means that by pressing the SmartStart button speed is reduced by half, making it easier to start drilling.
- Adapted to all types of users - from beginners to professionals.
- Has a new level guiding system that guides the operator, increases precision, and through that, provides more efficient drilling.
- The machine's front handle can be turned 360 degrees, which is useful when drilling in cramped areas.
- The electronic positioning system guides the operator to drill in vertical, horizontal or preferred angled position.
- Equipped with Elgard™, which uses pulsation to indicate when the machine is overloaded. This extends product life.
- When making a starter hole, speed can be reduced by half using SmartStart. This function is integrated in the trigger.
- Built-in SoftStart™ - electronic current limiter means full speed is reached about two seconds after start.

TECHNICAL SPECIFICATION	
Voltage	230 / 110V
Amperage	8 / 13 A
Power	1850 W
Phases	1
Output RPM at full load	580 / 1400 / 2900 rpm
Speeds	3
Spindle speed full load	580/1400/2900 rpm
Rated output, W	1850/0 W
Rated current, A	8/13 A
Max drill bit diameter, handheld	3 inch
Max drill bit diameter, stand	6 inch
Mounting collar	2.36"
Spindle thread, outer	1-1/4"
Spindle thread, inner	1/2"
Weight	16.5 lbs
Sound pressure	90 dB(A)
Sound level	94 dB(A)
Power rating	1100 W
